

FOR THE OD FACILITATORS OF THE WORLD

To the Election Committee for President and to the IODA members:

Whilst I wish to be nominated as President of our organization and as I recognize the issues which challenge us as humankind, we must move forward.

If our effort will have taken more than 20 years, thousands of dollars, and thousands of hours, my proposal will take us not beyond, but further maintaining **continuity**.

I fully realize that we cannot embark our organization in other efforts until we successfully end the transmission of the last years efforts of our IODA leaders and active members of the EC. Yet I feel that it is time to begin a new momentum whereby we could launch in an endeavor of at least 20 more years.

My view can be a focus on **education, using all the science and technology we now have at hand.**

The future calls us to do more for the millions of young persons, particularly those in our communities. An effort which calls on every IODA member and future member, to instill in young persons the ideal and philosophy of our movement and as a result make place for better citizenship.

We must do more for them, for the women, for our own societies; they do need us. These people need IODA.

Indifference cannot be part of the human spirit.

I leave these reflections with you. The Triumph of the Human Spirit lies within us. We will not change the world, but with small actions, we will change our lives, influencing in others lives through the most powerful weapon: EDUCATION

What can we take with us at the "very end"...not more than the good we have done to another human being.

Adriana De La Fuente

Hereby, Consultant José Campoverde Ayres, IODA member since 1986, facing the elections for the Presidency of IODA 2016-2018, is honoured to present the recommendation to the Executive Committee of IODA, the name of the Consultant Adriana De La Fuente, to become IODA's President, due to the fact, that she has the requirements and demands of this position, among the present times as well as the world wide future projections.

I know Ms. De La Fuente 20 years ago, from an honorable family, top profesional academy and updated knowledge, international experience, with strong manage resources and executive personality in order to lead IODA in the five continents, preserving its philosophy, values and institutional principles.

Her multicultural experience, goas aligned with the essence of the multicultural character of IODA at the present time, facing the world needs and circumstances, according to the power of orientation that our institution is requiring, on behalf of the cultural changes.

Therefor, I do confirm that her candidacy to lead this Institution, opens a future window to influence throughout her leadership over the 65 countries as IODA members.

Truly yours,
José Campoverde Ayres

Greetings from Maputo. This is just a short note to convey my support to Adriana's candidacy for IODA President. We all know who Adriana is and how much she cares and loves IODA. She is the perfect person to take us forward from where Peter Kalmár brought us to. So, I am delighted to support her to be our next President.
